

Swedish Distributor joins Tricool's Growing Network

Welcoming their latest distributor to their ever developing international network is **Tricool Thermal**: experts in temperature control equipment. The new Swedish distributor, **ZW Nordic ab** is based north of Stockholm and will be selling Tricool's wide range of heating units throughout Sweden, Finland, Norway and the Baltic countries.

New Swedish Industry Sectors

ZW Nordic is a well established organisation exclusively selling Tricool's heater units to the pharmaceutical, food, chemical, paint, ceramics and raw material industries. They have enjoyed over five years of exceptional sales thanks to their extensive knowledge and experience of working within these markets.

Danny Yaroslaw (pictured below left) and Ben Young (pictured below right) Tricool's Export team are excited to work with ZW Nordic, because the arrangement will allow Tricool to expand their circulation of products throughout Europe and across a variety of applications and processes.

Commenting on the arrangement, Danny said: *"ZW Nordic will massively assist in expanding Tricool's distribution network. With the combination of their dedicated technical sales team and our innovative products, this new arrangement is a positive step forward for both our organisations."*

Rapidly Growing Network

ZW Nordic will be joining Tricool's growing network of established international distributors including: **Mac Technologie**

(France) - non plastics, **Farpi France** (France), **Hor-Tal** (Israel), **Plastima** (Holland), **Polytemp** (Sweden), **Flogaz** (Turkey), **GS Tecnic** (Spain), **Ferromatik** (Denmark) and **Renzo** (Russia, Ukraine and Belarus).

Delighted with the arrangement, ZW Nordic's Founder and Owner, **Urban Wretlinge** said *"Joining Tricool will mean we can expand our market by selling their diverse range of heating units. We chose to work with Tricool, because they design and manufacture all their units on site; ensuring a complete quality of service."*
