

New Distributor for Tricool Thermal

UK-Based temperature control experts **Tricool Thermal** are pleased to announce the appointment of **FARPI-FRANCE**  as its new distributor for heaters and temperature controllers to the French plastics market.

Technically advanced product range

Based on the outskirts of Lyon, Farpi has served the French plastics industry for over 30 years. As a specialist in plastics processing equipment and pharmaceutical cosmetics Farpi provide advanced, innovative and technical solutions, transforming plastic processes across the country. Their involvement with specialist suppliers such as Tricool Thermal ensures a technically advanced product range providing reliable solutions.

Speaking about the agreement **Dave Palmer** Tricool Thermal's Manufacturing Director (pictured right) said: "Tricool Thermal's products have been sold across Europe for many years and we welcome the opportunity to work with **Farpi** to grow business in this important market."

Ideal combination

I believe that the combination of **Tricool Thermal's** high quality products coupled with the dynamic and technically advanced team at **Farpi** will bring added value to our customers".

Farpi has a team of highly qualified technicians on hand, able to provide advice, assistance and training for any plastics application you may have.

Farpi can be contacted on the details below:
