

Tricool Thermal Appoint New Spanish Distributor

The refrigeration and process heating specialist, Tricool Thermal are pleased to announce the appointment of their new Spanish distributor, GS Tecnic.

Located on the East Coast of Spain near Barcelona, GS Tecnic works within the plastics market selling a range of ancillary products that compliment Tricool's heaters extremely well. GS Tecnic provides a variety of services to the plastics industry including repairs and servicing of injection moulders and extruders.

International Temperature Control

The GS Tecnic team also provide mixing machines to the food and pharmaceutical industries, which is a growing market for Tricool. The Spanish organisation will be exhibiting some of Tricool's heater units at the **Equiplast Show** in Barcelona between **14th - 18th November**. Units which will be displayed include Tricool's **T90e, T90s-9Kw** and the **HTF350**. For information on the show and how to pre-register [click here](#).

Tricool's Export Manager, **Danny Yaroslaw** and Manufacturing Director, **Dave Palmer** visited GS Tecnic to confirm the arrangement for them to include Tricool's products as part of their product range throughout Spain. Danny commented on the appointment:

**Dave Palmer, Tricool's
Manufacturing
Director**

**Danny Yaroslaw,
Tricool's Export
Manager**

"We are delighted to be working with GS Tecnic and their dedicated team. With the combination of Tricool's products and their technical sales team we will be able to provide a quality service to the Spanish market."

A Growing Network

Tricool Thermal's products have been sold across Europe for many years now and GS Tecnic will join their growing network of distributors including **Mac Technologie (France) - non plastics, Farpi France (France) - plastics, Hor-Tal (Israel), Polytemp (Sweden), Plastima (Holland) and Flogaz (Turkey)**.
